

iCARE

GENERAL

Milfos strongly recommends an iCARE program be implemented on your dairy farm.

Regular maintenance will assist to keep your system running efficiently and identify any potential problems before they occur.

Any remedial work can be planned for preventing loss of productivity caused by unnecessary downtime.

KEY BENEFITS

- Reduced breakdowns
- Better animal health
- Reduced teat complications & mastitis
- Optimised performance
- Increased profitability
- Peace of mind
- Friendly, helpful expert advice

SERVICES

WE OFFER FOUR KEY SERVICES IN OUR iCARE PROGRAMME:

- Full ISO test
- Quick test
- Platform check
- iCARE PLUS

Each service includes a comprehensive set of test procedures and visual checks. All are documented and a recommendation is given on items that were serviced or replaced during the visit.

Each "Service" is detailed in this document.

iCARE PLAN

What level of service best suits you?

We have three comprehensive iCARE Programmes to suit your requirements and budget:

- Gold Plan
- Silver Plan
- Bronze Plan
