

MILKING POINT MANAGEMENT LEVEL 1

iNTELSKAN PLUS with Milk Metering

iNTELSKAN LEVEL 1

iNTELSKAN PLUS level 1 is your entry to iNTELSKAN technology. The system includes the iNTELSKAN display box and sensor and is suitable for herringbone or rotary installations. The operator simply pushes the button to initiate milking. Milk yields are displayed on-screen in real time throughout the milking process. The screen can be set to display milk flow information such as flow rates and total milking time. Milk yields can be downloaded using the iTEST or iTRAC software. With iNTELSKAN you can herd test at every milking.

KEY FEATURES

- Milk yield recording at each milking point
- Flexible software options
- iTEST and iTRAC compatible
- Entry level to a full management system
